

Aluminum alloy manufacturers producing photovoltaic brackets

Does aluminum alloy need aging heat treatment for solar photovoltaic brackets?

The commonly used aluminum alloy series for solar photovoltaic brackets need to undergo aging heat treatment to achieve the required strength. China Aluminum strictly controls the solution treatment and aging heat treatment process to ensure the required strength of the aluminum alloy brackets.

Why should you choose a solar PV mounting supplier?

As a solar PV mounting supplier, we provide you with high-quality solar panel ground mounting systems, including solid brackets and support structures so that you can install solar panels on the ground for reliable solar power generation.

What types of solar panels does Chalco stock?

Chalco stock various aluminum extruded solar panel frames and photovoltaic support aluminum alloys, with a variety of finishes to choose from. If the existing products are not suitable for your needs, we can also customize them according to customer requirements.

What is a solar aluminum frame?

It provided customized frames for over 12GW module manufacturers, accounting for nearly 10% of global market share. Solar aluminum frame is used to secure and seal solar modules, enhance the strength of the module, extend the service life and facilitate transportation and installation.

Is aluminum a good material for solar panels?

With its advantages of light weight, high strength, corrosion resistance and durability, aluminum is widely used in building solar panel frames and photovoltaic supports. Research shows that aluminum is the most widely used material in solar photovoltaic (PV) applications, accounting for more than 85% of most solar PV modules.

Why do solar panels need anodized aluminum profiles?

Because the panel frame is exposed to the natural environment, it has high requirements for corrosion resistance. Chalco provides anodized aluminum profiles to further enhance the corrosion resistance of solar aluminum alloy frames.

Egret Solar is one of leading manufacturers and suppliers in China, specializing in the production of solar panel clamp, solar aluminum bracket, solar roof hook, etc. We can provide customers with quality assurance, fast. You can rest assured ...

Boyue Photovoltaic Technology Co., Ltd is located in Hebei Province, China, the factory covers an area of 18,000 square meters, and 150 workers, 66 kilometers away from Beijing Airport and 180 kilometers away

Aluminum alloy manufacturers producing photovoltaic brackets
