

Australian Photovoltaic Battery Energy Storage Exhibition

When is the Australian energy & battery storage Conference?

The Australian Energy & Battery Storage Conference is set to return in 2025. Mark your calendars for the 24 - 25th of February to join us in exploring the latest advancements in large-scale batteries, community storage, and pumped hydro projects shaping Australia's clean energy future.

What drives energy storage in Australia?

Whilst grid-scale batteries dominate headlines, there is another driving force of energy storage in Australia - consumer and commercial batteries. This fireside chat looks at the benefits and reasons for building Virtual Power Plants and residential consumption. How can consumers enable the transition to net-zero goals?

Why should you attend the Energy Storage Summit Australia?

If your goal is to meet other industry professionals and create valuable business partnerships to better harness business opportunities in the region, then the Energy Storage Summit Australia is the right place for you. The first edition of the Energy Storage Summit Australia was an event full of life, excitement, and industry connections.

Will small-scale batteries support 50% of Australia's renewable storage?

Small-scale batteries and those on the distribution networks, have been tipped to eventually support up to 50% of Australia's renewable storage. Why is it then, that there is no market reforms or regulations surrounding distribution batteries? This panel looks in closer detail at the role of distribution networks and batteries.

Can long-duration energy storage scale in Australia?

Whilst it is widely accepted that lithium batteries are the most efficient option now, to reach Australia's renewable targets and develop the best projects, the future seems to lie in long-duration energy storage (LDES). This panel explores how long-duration can scale in the current market, and the excitement surrounding it.

Is Australia a good place to invest in energy storage?

Governments at both a state and federal level are pushing investment and deployment into energy storage, and Australia is widely seen as a very attractive market due to negative pricing, volatility, and opportunity. However, this excitement is not without its obstacles, which the Summit will seek to address.

What Makes Solar & Storage Live the Exhibition to Attend This Year Solar & Storage Live sees over 100 exhibitors from across the globe, featuring new ways of thinking and novel partnerships to generate solutions to help power the ...
