

What is Batangas' largest solar project?

LARGEST SOLAR PROJECT Rather than harvest rice and corn, this 160-hectare farm in Calatagan, Batangas province, the largest solar facility in the country, generates heat from the sun, providing power to the western part of Batangas. CONTRIBUTED PHOTO

When will Solar Philippines start construction in Mindanao & Luzon?

Solar Philippines will soon begin construction on its next projects in Mindanao and Luzon. It aims to complete 500 MW of capacity by 2017. Including the Calatagan project, Solar Philippines has a total solar power capacity of 80 MW at present. Other projects in Mindanao (20 MW) and Luzon (50 MW) are seen to boost its capacity to 150 MW by midyear.

Do solar power plants increase local temperatures?

German Renewable Energies Agency. Archived from the original on 1 July 2013.
