

Can private lockers be shared

What's the difference between private lockers and shared lockers?

Private lockers hold items that only the player has access to while Shared Lockers, which require an online connection, allow everyone to donate and retrieve items from them. Lost cargo can also be stored in Postbox's, either in the player's private storage or entrusted to other players for delivery.

Are private lockers connected?

Private lockers are independent of one another and not connected. Same with shared lockers, each postbox and base and safe house has their own lockers, so you can't deposit an item in Lake Knot City and pick that same item up in South Knot City, for example. A!! Thank you though. Only antisocial hoarders use private lockers. :)

Are private lockers free?

Don't worry, you're not stealing anything from another user -- they have to specify that the item in question is put into the shared locker for others to take. Because of that, it's a bit of a free for all. If you see an item you need, simply grab it and it's yours. Private lockers, on the other hand, are exclusive to your game.

What is a shared locker?

Shared lockers are something you'll want to take advantage of as they contain items and equipment that other online players have put into storage which you can then take for yourself. Don't worry, you're not stealing anything from another user -- they have to specify that the item in question is put into the shared locker for others to take.

What happens if I leave items in a private locker?

If you leave an item in a Private Locker in location A, you won't be able to access it from a Private Locker in location B. It is best to choose one favorite locker from each region of the map to not forget where all the spare items are stored. The same goes for garages where you can store vehicles.

Where can I find a private locker?

You can find a private locker at any main facility like a town or distribution center. Outposts with NPC characters will also have private lockers once you reach a certain level with them. Access it from the delivery terminal menu. You can also craft a postbox via a PCC (Lv. 1).

Shared use mode, also known as day use or public mode, is a game-changer for places with a constant flow of visitors. With this mode, users can swoop in, claim any available locker, and secure their belongings with a personalized numeric ...

Once done, they can open the locker using the same combination or card, and voila - the locker resets for the next guest. Benefits of Shared Use Locks. Efficiency: Guests can quickly find and secure a locker without waiting for ...
