Pew Research Center conducted this analysis to understand Americans' adoption of home solar panels. It relies on data from the and the , among other sources.

Can you put solar panels on a old roof?

If your roof is old, the answer is no--at least not until you replace it. Asphalt shingles that are 10 years old or more should be replaced before adding a solar array on top, says Ana Almerini, a spokesperson for SolarReviews. New solar panels are warranted to last, on average, 25 years, while most roofs are warranted for 30 years or less.
