Mounting system: This is what holds rooftop solar panels in place. Costs vary depending on the type of solar installation, but it generally costs between 7 and 20 cents per watt. **Electrical wiring and hardware:** This includes the wiring, switches and circuit breakers required to connect the solar panel system to your home's electrical system.

How much does it cost to install solar panels?

According to our solar experts, solar panels cost about \$19,000 to install in the United States, on average. While the price tag seems steep, incentives and payment options help make the cost of going solar easier to manage. The total cost of a solar installation depends on your location, energy usage, and even the type of equipment you use!

Should you install a solar energy system on your roof?

When you install a solar energy system, you're getting more than just solar panels on your roof. Multiple pieces of equipment, such as racking, wiring, and inverters, must be installed so the solar panels can power your home. There are also a number of costs that ensure your system is installed correctly and that the solar company can operate.

How much does solar panel maintenance cost?

Solar panel maintenance costs: Solar panels have no moving parts, so very little maintenance is required. However, getting routine professional solar panel cleaning and inspections every two years can keep your system in tip-top shape. These solar maintenance costs can be about \$300 per session.

Should you replace your roof before installing solar panels?

And if you're also replacing your roof before the solar system installation, consider steel standing seam. It combines the lightweight strength to support solar panels and the longevity to outlast them. The ideal roof for solar is one facing south with enough slope to properly tilt the panels and enough room for them.

How much does a solar panel cleaning cost?

Solar panel cleaning companies charge between \$3 and \$10 per solar panel based on roof slant, home height, and system size. Some solar installers charge a flat fee for a system cleaning. If your system is cleaned professionally twice a year, as recommended, you can expect an annual bill of about \$300.
