

# Companies that install photovoltaic panels in communities

Community solar is a great way to help reduce carbon emissions on the power grid, especially if you can't install your own solar panels. It costs nothing for most people--in fact, it's usually a monthly savings. You don't need an electrician, ...

Utility-scale solar farms. A utility-scale solar farm (often referred to as simply a solar power plant) is a large solar farm owned by a utility company that consists of many solar panels and sends electricity to the grid. Depending ...
