

Containerized mobile energy storage power station

What is a containerized battery energy storage system?

EVESCO's containerized battery energy storage systems (BESS) are complete, all-in-one energy storage solutions for a range of applications.

What is a boxpower containerized power system?

HARDWARE SOLUTIONS BoxPower containerized power systems are fully integrated with solar power, battery storage, intelligent inverters, and optional generator backup. Expedite your project timeline and reduce costs by leveraging our modular, configurable microgrid solutions. 3.8 kW to 60 kW of PV per 20' container

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO₄) combined with an intelligent 3-level battery management system (BMS);

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

What is a containerized portable power plant?

The containerized portable power plant can be configured to power all types of loads at remote locations with limited electricity supply. The system can create its own completely off-grid micro-grid environment to power anything from construction sites and datacentres to mining exploration facilities and even whole communities.

What can a containerized EV charging station do?

If a connection to the electric grid is unavailable the containerized charging station can integrate with renewables such as solar and wind, power generators utilizing biofuels or natural gas, and fuel cells powered by hydrogen for a completely off-grid, sustainable, net-zero EV charging solution.

EVESCO's 5ft, 10ft, and 20ft all-in-one containerized energy storage systems are designed to be Plug & Play solutions, manufactured, pre-configured, commissioned, and tested at our production facilities. This results in minimal ...
