

Customized Photovoltaic Panel Price List

How much does a solar panel installation cost?

The best way to evaluate the price of a solar panel installation is in dollars per watt (\$/W). Similar to comparing dollars per square foot when shopping for a home, \$/W helps standardize the cost of solar by showing the cost of solar on a per watt basis. Currently, the average price of a solar panel system installed in the U.S. is \$2.91/W.

Why should I get a custom solar panel design?

Receive a custom prepared design for a solar panel system prepared by an experienced technician. This personalized solar design helps you to make an informed, unbiased decision to find the best solar power system at the lowest cost.

What are the different types of solar panels?

As you're budgeting for a solar panel system, you may come across three types of solar panels. Each one can come with its own price tag, so consider the following price differences before you choose. Monocrystalline solar panels cost between on average and are usually the most popular choice.

Are solar panels worth it?

Solar panels can generate major savings if you're trying to reduce your electricity costs, carbon emissions or both. The primary factor in determining whether or not solar panels are worthwhile for you is the cost you're currently paying for electricity. The higher your electricity costs, the more a solar panel system will save you in the long run.

How much does a 5 kW solar system cost?

Looking at national average pricing data, we found that the cost of owning a 5 kW solar system ranges from \$13,250 to \$21,000, or from \$2.65 to \$4.20 per watt, and that's before considering the benefits of any available tax credits or incentives *. How do I know how much sun my roof gets?

What is a 'solar panel rate' scam?

This is a common scam used to gather personal data and/or trick people into signing long-term solar lease agreements that are far less favorable than owning solar panels. For example, in February 2023, a Facebook page called "Solar Panel Rate" ran multiple ads claiming Elon Musk was paying homeowners \$2,500 to test out new solar technology.

The solar panel price per watt matters a lot since they are the foundation of any solar system. Like we have mentioned earlier, the average per watt price of solar panels of genuine solar brands like Vikram Solar, Waaree Solar, Adani Solar, ...
