

Customized design of photovoltaic panels in factories

What is a custom solar panel design tool?

Because it can be difficult to explain all these options over the phone, in an email, or on a webpage, we developed a Custom Solar Panel Design Tool. Customers can use this tool to learn the basic anatomy of a solar panel, some of the customization options available, and create a custom solution that meets their needs.

How much does it cost to design a custom solar panel?

There are no design fees to create a prototype of your custom solar panel. Some, but not most, designs may require a fee to prepare the machinery to create your specific panel at volume. Our MOQ is 500 - 2,000 units depending on the size of the panel.

Is PowerFilm a US based solar company?

Celebrating over thirty years in business, PowerFilm is proud to be one of the few US-based solar manufacturing companies operating today. The Soltronix brand brings PowerFilm expertise, innovation, and commitment to US-based semi-flexible crystalline silicon solutions.

What is a 60W foldable solar panel with overlaminates?

The 60W Foldable Solar Panel with Overlaminates is designed to charge small to medium electronic devices using DC power or one of many available accessories. The top sheet of lamination on the panel provides improved moisture resistance and durability for the solar modules and the fabric.

How do I contact powerfilmsolar?

Email: shansen@powerfilmsolar.com Phone: 515-292-7606 Learn more about the PGA Show We design and manufacture custom solar cells, panels, and power solutions using proprietary thin-film or high-efficiency crystalline PV technology.

Why do solar panels have a top sheet of lamination?

The top sheet of lamination on the panel provides improved moisture resistance and durability for the solar modules and the fabric. A familiar challenge drivers face is the unreliable battery power of liftgates, which can run out at critical moments, leading to delays, frustrated customers, and disrupted schedules.

PowerFilm designs and manufactures custom, high-quality solar power panels and mounting solutions for a wide range of industrial applications including transportation, agriculture, parking, and environmental monitoring. We work ...
