

# District Photovoltaic Panel Construction Price Inquiry

Do small-scale installers in the residential sector have a larger PV system?

We infer the predominance of small-scale installers in the residential sector using data on residential system financing (Wood Mackenzie 2022b). The higher efficiency of modules assumed for Q1 2022 (CA NEM 2022) results in largerresidential PV system sizes compared with systems in Q1 2021.

### What are utility-scale PV systems in the 2024 ATB?

Utility-scale PV systems in the 2024 ATB represent 100-MW DC (74.6-MW AC) one-axis tracking systems with performance and pricing characteristics in line with bifacial modules and a DC-to-AC ratio, or inverter loading ratio (ILR), of 1.34 for the Base Year and future years (Ramasamy et al., 2023).

### How are rooftop and ground-mounted PV systems modeled?

Both the rooftop and the ground-mounted PV systems are modeled with three-phase string inverters with an ILR of 1.23. Both use 20.3%-efficient monocrystalline silicon modules from a Tier 1 supplier (CA NEM 2022). Figure 10 is a schematic of our commercial-scale system cost model, and Table 5 details the modeled parameters in intrinsic units.

## How much does a preconstruction survey cost per acre?

In the top panel of Figure 5,the high 2022 preconstruction survey material cost of \$45 per acreis excluded, and the remaining 2017-2021 costs (\$19,\$22,\$23,\$24,and \$35 per acre) are averaged to yield an MSP for this component of \$24 per acre.

#### How do we calculate PV LCOE without the ITC?

We also calculate PV LCOE without the ITC using steady-state financing assumptions. Under these assumptions, the commercial rooftop PV LCOE ranges from \$0.07 kWh to \$0.10/kWh, and the commercial ground-mounted PV LCOE ranges from \$0.07/kWh to \$0.10/kWh in Q1 2020.

#### How are PV and storage market prices influenced?

On the other hand,PV and storage market prices are influenced by short-term policy and market driversthat can obscure the underlying technological development that shapes prices over the longer term.
