

Domestic solar photovoltaic panel manufacturers

What are the biggest solar panel manufacturers?

Some of the biggest U.S.-based solar panel manufacturers include: 1. Auxin Solar Founded in 2008 and headquartered in California, Auxin Solar is the nation's longest-running Community Solar Value Project (CSVP).

Where are solar panels made?

Four of the biggest manufacturers are headquartered in China and primarily manufacture equipment there (though one of them, Jinko Solar, does have an American manufacturing facility in Florida). The fifth largest manufacturer is a Canadian company, Canadian Solar, which also has a manufacturing facility in Texas.

Who makes American-made solar panels?

American-made solar panels may not always come from American companies, but they are built by American workers. Here's more information about five of the biggest, best companies that make solar panels in the USA. The top five solar panel manufacturers in the U.S. are First Solar, Qcells, Silfab, Jinko Solar, and Mission Solar.

What is a solar photovoltaic manufacturing map?

The U.S. Solar Photovoltaic Manufacturing Map shows only active manufacturing sites that contribute to the solar photovoltaic supply chain. It details their nameplate capacities, or the full amount of potential output at an existing facility, where known. This does not imply that these facilities produced the amount listed.

Who makes first solar panels?

Ohio-based First Solar is the largest manufacturer of solar panels in the U.S., producing about 50% more panels than the next-biggest American-made brand.

Who makes thin-film solar panels?

NREL estimates an additional 2.5 GW of thin-film panel production capacity from U.S.-headquartered First Solar, which operates a plant in Ohio. Domestic panel producers cite multiple factors for the relatively limited CS PV manufacturing growth since 2018, as compared to increased domestic demand over the same period.
