

Energy storage box automatic assembly equipment manufacturer

What is a battery pack automation production line?

The line ensures that each step of the battery pack assembly is performed accurately and consistently to meet quality standards and industry specifications. Our battery pack automation production line stands as a testament to our commitment to advancing manufacturing technology and reshaping the landscape of battery production.

What is a battery module automation production line?

Our battery module automation production line stands at the forefront of advanced manufacturing technology, designed to streamline and elevate the production of battery modules like never before.

What makes our EV battery module pack assembly line unique?

Our EV battery module pack assembly line stands as a testament to our commitment to advancing manufacturing technology and reshaping the landscape of battery production.

How can a containerized energy storage solution be manufactured in Taiwan?

Manufacturing and assembling containerized energy storage solutions in Taiwan through the utilization of automated laser welding systems, in compliance with ISO standards.

Who is Billion Electric Group's first containerized energy storage factory?

Billion Electric Group's first Containerized Energy Storage factory is responsible for shipping batteries and containers to Taiwan for localized assembly, calibration, testing, and system integration, including power interface engineering.

Our expertise in automation, assembly, laser processes and integrated inspection systems enables innovative solutions for the production of pouch cells, prismatic cells and round cells. Machines and Systems for Battery Production ...
