

# Energy storage power system conversion cabinet

What is a power conversion system (PCS)?

As a result, there is a growing need for energy storage devices. The power conversion system (PCS) is a crucial element of any effective energy storage system (ESS). Between the DC batteries and the electrical grid, the PCS serves as an interface.

How does a power conversion system work?

The PCS charges the batteries in the event of excessive power generation. The PCS provides the power with the stored energy if the grid needs extra energy. AC/DC bidirectional converters, control elements, switching components, and cooling compose a power conversion system. There are many layers of remote control for the system.

What is the power and capacity of the container series?

Power and capacity range from 30kW/50kWh to 90kW/150kWh. These solutions are modular and expandable to meet larger energy storage requirements. The Container Series are outdoor containerized energy storage systems for utility grid tie or C/I behind the meter applications.

What is a cabinet series?

The Cabinet Series for indoor and outdoor C/I energy storage systems help reduce peak energy costs from equipment and operations. Power and capacity range from 30kW/50kWh to 90kW/150kWh. These solutions are modular and expandable to meet larger energy storage requirements.

What is ABB power conversion system?

and demandSTATCOMCorrect power factor and improve voltage regulationThe ABB Power Conversion System is designed to be a complete InvertersDC circuit breakers and protectionLocal and remote controlThe PCS enclosure houses all the main system components in one container that can be designed to cover a wide range of environmental conditions

What is a containerized energy storage system?

The Container Series are outdoor containerized energy storage systems for utility grid tie or C/I behind the meter applications. They are available in 10ft, 20ft, and 40ft configurations. Power and capacity range from 150kW/150kWh up to 1.5MW/ 2.2MWh. You can combine multiple units for even more capacity.
