

Which energy storage solutions does Delta offer?

Delta's energy storage solutions include the All-in-One series, which integrates batteries, transformers, control systems, and switchgear into cabinet or container solutions for grid and C&I applications. The streamlined design reduces on-site construction time and complexity, while offering flexibility for future expansion.

What is a battery energy storage system?

Our Battery Energy Storage Systems are designed for both outdoor and indoor locations, tailored to meet the needs of small and medium enterprises or industrial sites. We offer a versatile range of solutions, including both first-life and second-life battery cabinets for sustainable energy management.

How do I store my energy in a turnkey system?

Store your energy in a turnkey system consisting of a fully equipped outdoor battery cabinet and bidirectional inverter. Reliability and safety are assured with our Battery Services. The Monitoring and Capacity Guarantee services ensure the proper functioning of the system, while the Optimal Control service maximizes the value of the entire system.

The LiHub ESS is compact, easy to install, easy to maintain, and highly secure. ... Within the IP54 protected cabinet consists of built-in energy storage batteries, PCS inverter, BMS, air-conditioning units, and double layer fire protection ...
