

Everbright Sunshine Solar Special Bracket

Should I use Everbright and Sunrun?

There are issues with Everbright, a new company in the industry, particularly with their servicing. They rely on third party companies to service your account once you receive PTO and are based out of Florida with no service footprint. It is recommended to go with Sunrun instead.

Is Everbright PPA a good solar product?

Some people have had good experiences with Everbright PPA, as stated by a user who has been in the solar industry for 8 years. However, others have had negative experiences and would avoid it.

Can the Everbright create a custom color palette?

The Everbright utilizes a range of custom communications protocols. We can develop a custom color palette to incorporate brand colors. This palette can be applied to any of the 11+ dynamic animations the Everbright ships with. We can also develop custom animations and interactions.

Is the Everbright crate ready to use?

The standard Everbright is ready to use and can be plugged in before anyone removes it from the crate. It is fully self-contained and does not require access to Wifi or any data connections. View power & mounting diagrams, datasheet, and installation guides for standard sizes: Everbright Classic (~8 feet long, 4 feet high)

This is the most comprehensive solar panel mounting video article, including videos of various mounting brackets. For example, how to use the balcony to install solar panels. This includes iron sheet/ground roof solar panel bracket ...
