

# Export requirements for energy storage cabinet manufacturers

What is energy storage export & import?

cient and effective interconnection process for ESS. Energy storage export and import can provide beneficial service to the end-use customer as well as the electric grid. These capabilities can, for example, balance power flows within system hosting capacity limits, reduce grid operational costs, and enable a

Can storage use PCs for energy metering?

import limits within distribution system constraints. Storage could also use PCS to enable it to comply with net energy metering requirements, typically when set for export only to ensure that a battery is charged entirely from solar or import only t

Can a power control system be exported?

Export4.10.4.3.1 Certified Power Control SystemsDER may use certified Power Control Systems to limit export. DER utilizing this option must use a Power Control System and inverter certified per UL 1741 by a nationally recognized testing laboratory (NRTL) with a maximum open loop response time

Should export control equipment be updated?

Non-standard types of export control equipment will continue to need customized review, but it is reasonable to update interconnection procedures to identify a list of acceptable methods that can be trusted and relied upon by both the interconnection customer and the utility.

Can a der facility limit inadvertent export?

DER facilities may use certified Power Control Systemsto limit export. DER facilities utilizing this option must use a Power Control System and inverter certified per UL 1741 by a nationally recognized testing laboratory (NRTL) with a maximum open loop response time of no more than 30 seconds to limit Inadvertent Export.

What are export control systems?

Export ControlsA. Introduction and Problem StatementStorage systems have unique capabilities, such as the bility to control export to, or import from, the grid. There are multiple different methods by which ESS can manage export, including the use of traditional relays as well as Power Control Systems t
