

# Factory bidding for photovoltaic panel procurement

How can a pm solicit a Solar System proposal?

To solicit proposals for a solar system, a PM can issue a competitive RFP publicly and to multiple certified installers, or request quotes directly from a few trusted installers. For either of these methods, the PM can use MassCEC's project and cost data to find installers who have completed nearby commercial projects.

Are solar photovoltaic systems a good investment?

For sites with time-of-use (TOU) and/or demand rates, solar PV systems are to be designed to offset the greatest amount of electricity in higher cost-rate periods and achieve the greatest annual dollar savings. Feasibility evaluations to determine the potential size of solar photovoltaic systems have not been completed.

Can a contractor recommend a PV system size?

After the contract award, the Contractor can recommend PV system sizes at their discretion, as long as the total aggregated PV system size is within plus/minus 10% of the original estimate. Certain buildings can be added or subtracted, subject to Governmental approval.

The Federal Energy Management Program (FEMP) provides this tool to federal agencies seeking to procure solar photovoltaic (PV) systems with a customizable set of technical specifications. Select the plus sign in the rows below for more ...

Solar procurement has an increasingly critical role to play in terms of increasing supply chain resiliency, accessing supplier innovation, and delivering enterprise-wide cost reductions. Leveraging Targray Group's long-standing partnerships ...
