

Foreign trade solar power generator set

Why do Cambodians need diesel generators?

There is tremendous demand in Cambodia for diesel generators as backup power, on-site power plants, and power generation in rural areas not served by public utilities.

Which solar generator should I buy?

A quick scroll to the comparison table above and the generator you need is the Bluetti AC500 + B300S. Of course, if you need less power, you don't need to splurge with such a big battery. Tells you the total wattage the solar generator can deliver at the same time until the battery runs out.

Where do US solar equipment imports come from?

Since the imposition of the Obama-era tariffs, the share of US solar equipment imports directly from China has been almost completely phased out, with imports shifting to Southeast Asia. The recent DOC decision would expand these AD/CVD tariffs to cover imports from certain companies in Cambodia, Malaysia, Thailand, and Vietnam.

Can US companies use solar energy in Cambodia?

Opportunities exist for power generation and transmission equipment. The Cambodian government encourages usage of solar energy technologies, but U.S. companies are advised to review new regulations that might impact their business practices. Ministry of Mines and Energy

Are Chinese solar energy producers circumventing US import duties?

Blog by Lilly Yejin Lee & Noah Kaufman on November 13, 2023 According to the United States government, certain Chinese producers have been circumventing US import duties by exporting solar energy equipment from Southeast Asian countries to the US. New steep import tariffs are scheduled to be imposed on these companies in June 2024.

Does the government have funding for power generation projects?

As with other types of infrastructure development, the government has only limited funding for power generation projects, but U.S. suppliers should check the state-run utility Electricité du Cambodge (EDC), World Bank, and Asian Development Bank (ADB) websites regularly for potential new projects in the energy sector.

Xiamen AOSIF Engineering Ltd has focused on R&D and manufacturing of generator sets & alternators since its founding in 2001, and has accumulated rich manufacturing and service experience in this field. The manufacture base is ...
