

Future growth rate of photovoltaic inverters

What is the global PV inverter market size?

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

What is the market share of solar PV inverters in 2023?

According to the Solar Energy Industries Association (SEIA), prices for solar PV installations have fallen 43% over the last 10 years in California, U.S. Based on product, the string PV inverter segment emerged as the leading segment with the maximum revenue share of 47.10% in 2023.

How much power does a solar inverter generate in 2022?

According to the International Energy Agency (IEA), power generation from solar photovoltaic (PV) increased by 270 TWh in 2022, up by 26% in 2021. Solar PV accounted for approximately 4.5% of total global electricity generation in 2022. Solar PV inverters are an integral part of larger solar systems.

Why are solar PV inverters so popular?

The constant economic growth in nations such as the U.S., China, and India as well as developments in supply chain and favorable government policies supporting PV inverter production in the U.S. and India are driving demand for solar PV inverters.

Will solar PV be the future of electricity?

In the REmap analysis 100% electricity access is foreseen by 2030, in line with the Sustainable Development Goals, and solar PV would be the major contributor to this achievement. Costs are expected to reduce further, outpacing fossil fuels by 2020 (IRENA, 2019f).

Which country has the largest PV inverter market in 2023?

The U.S. emerged as the largest market in North America in 2023. It is a significant market for different types of PV inverters. Some recent inverter trends in the U.S. include an increase in the sizes of central inverters (1.5 MW plus) and three-phase string inverters (60 kW).

Europe PV Inverter Market Overview: Europe's PV Inverter Market Size was valued at USD 2.6 Billion in 2022. The Photovoltaic Inverter market is projected to grow from USD 2.86 Billion in 2023 to USD 6.23 Billion by 2032, exhibiting a ...
