

What is a power rail PV module mounting system?

The PV module mounting system engineered to reduce installation costs and provide maximum strength for parallel-to-roof, tilt up, or open structure mounting applications. The POWER RAIL mounting system is designed with the professional PV solar installer in mind.

How framed PV modules can be installed on a trapezoidal metal sheet roof?

rainless system facilitates the rapid mounting of framed PV modules on trapezoidal metal sheet roofs with minimum thickness 0.8 mm. Only three components are required to install the modules directly to the roof. A base mounting clip is 100 mm or 140 mm long, therefore easy to carry and attach to almost all trapezoidal and sandwich roofs.

What is included in a power rail PV flash?

POWER RAIL PV Flash includes one universal slotted compression block, and one 8" x 12" flashing in matte, black color. L-Foot ordered separately. *MUST order in quantities of 10. The all aluminum Low Profile Tilt Kits mount a set of POWER RAIL extrusions (sold separately) at the tilt angle specified.

What is a pvkit edgegrab?

(Pictured: The PVKIT EdgeGrab mounted on an exposed-fastened, trapezoidal metal roof) Used between adjacent modules to attach both frames to a single connection point. The MidGrab can also be used as an edge condition if desired. Used at edges of array to attach modules to rooftop clamp or bracket leaving a clean finished look.

What materials are used for mounting base brackets?

Mounting base brackets are fabricated from Series 6000 structural marine grade aluminum. 5/16" hardware included. "L" Feet are fabricated from high-strength 3/16" aluminum and include a vertical slot for adjusting to irregular surfaces. 5/16" coated hardware included. "L" Feet are fabricated from high-strength 3/16" aluminum.

The material's corrosion resistance extends the life of the bracket and improves the overall durability of the solar panel system. Additionally, zinc-aluminum-magnesium alloys are highly resistant to sea salt and other environmental ...
