

Level-Up your solar power with storage. Including a battery storage solution with solar panels will allow you to offset your carbon footprint and utility bills, self-supply your backup power, and more. See how storage expands the benefits ...

There are four types of solar batteries: lead-acid, lithium-ion, nickel cadmium, and flow batteries. The most popular home solar batteries are lithium-ion. Lithium-ion batteries can come as AC or DC coupled. AC-coupled batteries can be ...
