

Genzi Solar Power Plant Address

Where is the Genesis solar energy project located?

The Genesis Solar Energy Project (GSEP) is located on approximately 1,800 acres at 11995 Wiley's Well Road, about 25 miles west of the city of Blythe, Riverside County, California. GSEP is in an undeveloped area of the Sonoran Desert on lands managed by the Bureau of Land Management.

Who owns Genesis solar energy?

The plant is owned/managed by Genesis Solar, LLC, a subsidiary of NextEra Energy Resources, LLC. The Genesis Solar Energy Project is located about 25 miles (40 km) west of Blythe, in the Lower Colorado River Valley.

What is the Genesis solar energy project (GSEP)?

The project was certified by the CEC on September 29, 2010. Unit 1 began commercial operation on March 7, 2014 and Unit 2 on November 30, 2013. The Genesis Solar Energy Project (GSEP) is located on approximately 1,800 acres at 11995 Wiley's Well Road, about 25 miles west of the city of Blythe, Riverside County, California.

What is Genesis Solar Energy Project CSP project?

This page provides information on Genesis Solar Energy Project CSP project, a concentrating solar power (CSP) project, with data organized by background, participants, and power plant configuration.

How much energy does Genesis solar produce a year?

Genesis Solar Energy Project's production is as follows (MWh). Maximum production was estimated at 580,000 MWh per year. ^Wesoff, Eric (30 August 2011). "250MW Genesis Thermal Solar Gets \$852M DOE Loan Guarantee". Wood Mackenzie.

Where are solar power plants located?

From the perspective of geographical distribution, larger solar power plants (≥ 100 MW) are sparsely distributed in remote locations from urban areas, particularly in the northwest region, notably Qinghai and Xinjiang.
