

# German photovoltaic inverter manufacturer

Who makes German solar inverters?

Headquartered in Niestetal near the city of Kassel in northern Germany, the SMA Group is easily the biggest player in the German solar inverters, a key unit of all PV plants. Moreover, its total turnover of about EUR1 billion in 2015 also makes it the market leader globally.

How many solar inverters are there in Germany?

Top German solar inverter manufacturers. German Green Policy Drives Local PV Inverter Sector. The development has spelt companies manufacturing renewable energy products such as solar inverters; according to industry estimates, there are over 1.4 million solar PV systems in Germany.

Who can benefit from German solar inverter manufacturers?

Residential, commercial, and industrial consumers can all benefit from the goods offered by German solar inverter manufacturers. Their inverters are designed to optimize the performance of solar panels by efficiently and precisely converting DC electricity to AC power.

Who makes solar inverters?

Following SMA in the pecking order is Kaco New Energy, also one of the world's largest manufacturers of solar inverters globally. Headquartered in Neckarsulm near Stuttgart, Kaco has businesses in 16 countries, with its production facilities in Germany, the Americas and Asia having produced inverters with a total capacity of around eight GW since 1999.

Who makes transformerless solar PV inverters?

After the spin-off from the traditional automotive brand KACO, we used these roots to launch the world's first transformerless solar PV inverter on the market in 1999 - and developed into a leading manufacturer out of conviction for the cause. Make your investment in photovoltaics and battery storage a success story with us today.

Who makes the best solar inverter?

Look no further than German manufacturers of solar inverters. German manufacturers are well-known for their skill in designing and manufacturing premium solar inverters that satisfy the industry's highest efficiency, reliability, and durability criteria.

SMA Solar Technology AG (meaning System, Mess and Anlagentechnik) is a German solar energy equipment supplier founded in 1981 and headquartered in Niestetal, Northern Hesse, Germany. SMA is a producer and manufacturer of solar inverters for photovoltaics systems with grid connection, off-grid power supply and backup operations.
