

Who is lithium battery?

Lithium-ion stationary battery producer Hithium is entering the European market, with the opening of an office in Munich and its first appearance at Intersolar Europe. The company has achieved top positioning in the battery energy storage (BESS) sector in its home market of China.

Which energy companies have the most GWh shipments?

BYD and EVE Energy followed closely each with shipments of over 25 GWh, while REPT BATTERO and Hithium each ranked fourth and fifth with shipments of over 15 GWh. Despite intense price competition, the leading companies demonstrated significant cost control advantages, reinforcing the "the strong get stronger" pattern.

Where is the largest energy storage power station in China?

Located in an industrial park in Zhongwei City, Ningxia, the largest stand-alone energy storage power station in China has a capacity - provided by HiTHIUM battery products - of 400 MWh and output of 1.33 billion kWh per year.

Where is lithium battery made?

Stationary battery manufacturer Hithium's production facility at its headquarters in Xiamen, China, has received the globally recognized carbon neutrality certification PAS 2060 (Certificate number: 0412TZH01106).
