

High power energy storage welding machine lithium battery

What is a capacitor energy storage welder?

2.The new-designed capacitor energy storage welder uses the latest energy-gathered pulse technology, is has great welding power,the soldered dot is uniform and beautiful, no blackening. 3.The maximum output of the 801D welder is 14.5kilowatts. It can be used for large batteries welding.

What is lithium ion battery laser welding machine?

To meet this growing demand,SIL has developed the Lithium Ion Battery Laser Welding Machine. This innovative machine enables precise welding of prismatic cellsmade from materials such as aluminum,aluminum alloy,stainless steel,or OFHC Copper. It is capable of welding components with a thickness ranging from 0.5 mm to 3 mm.

What are the applications of lithium ion batteries?

Applications: 1)NiMH, NiCd AAA, AA, C and D lithium-ion batteries or rechargeable battery packs. 2)Assemble or repair battery packs and portable sources. 3)Production of small battery packs for mobile electronic devices. 4)Welding of lithium polymer battery, cellphone battery, and protective circuit board.

Which welding pen is best for battery welding?

The well-designed and professional welding pen brings you great efficiency for battery welding work. The machine's super energy-gathered pulse welding technology combines with a max welding power of 36 KW to provide a reliable welding effect. 0.5mm nickel and 0.3mm copper (with flux) can be easily welded.

What is a super energy gathered pulse welding machine?

The machine's super energy-gathered pulse technology combines with a max welding power of 36 KW to provide a reliable welding effect.

What are the advantages of 801B welder?

1.This 801B welder will not cause interference to the circuit system or cause tripping. 2. The new-designed capacitor energy storage welder uses the latest energy-gathered pulse technology,is has great welding power,the soldered dot is uniform and beautiful,no blackening. 3. The maximum output of the 801B welder is 11.6 kilowatts.
