

How many years of warranty for seaside photovoltaic bracket

How long is a solar panel warranty?

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard. However, some manufacturers provide a 25-year product warranty and extend the performance warranty to 30 years. How Much Does a Solar Panel Warranty Cost?

What is a performance warranty on a solar panel?

A performance warranty guarantees a maximum level of degradation- typically between .25% and .75% - per year so that in 25 years the panel will still have 80-90% of the power output it did in its first year. Performance warranties are important for sizing solar systems to maintain 100% offset for 25 years.

Are solar panels covered under warranty?

And if you plan to get a solar battery with your solar panel system, the battery is covered under a different warranty. The average battery warranty is 10 years. Your solar panel's performance warranty guarantees that your panels will produce a certain amount of electricity over the term of the warranty.

What is a residential solar company warranty?

Other residential solar company warranties cover one component of the entire system, leaving you with up to 4 separate warranties (panel, inverter, racking, monitoring). With other residential solar companies: SunPower stands behind your entire system, not just the panels. We also:

What are the different types of solar warranties?

There are three different kinds of solar warranties you'll want to be on the look out for: product, performance and labor warranties. If you're buying a solar panel system, the ideal warranty package should contain all three. Let's take a deep dive into what each type of warranty covers.

How much does a solar warranty cost?

If you'd like to buy coverage for a longer period than the standard 20 to 25 years, you can consider an extended warranty for your solar panels. This additional warranty typically adds \$350 to \$500 to the cost of your system for an extra 5 to 15 years of coverage, according to SaveonEnergy.
