

How to add solar panels to photovoltaic panels

Can I add solar panels to my existing solar system?

It's relatively easy to add panels to an existing system; many of the more difficult steps, such as tying your system to the grid, will already be complete. You can explore several options for a system upgrade, depending on your available roof space and the specifications of your solar system.

Can I add more solar panels if my roof is old?

Do not add more solar panels to your system if your roof is old, it is a leased system, or if you do not have enough roof space for extra panels. Contact your original solar installer to add more panels to your system.

Why add solar panels to an existing solar system?

How do I get more solar panels on my roof?

Working with your original solar installer is the best way to get more panels on your roof. Your initial installer will be comfortable with your system, know which permits you must apply for when adding panels, and what equipment will pair best with your existing system.

Should I add solar panels or battery storage to my home?

Most homeowners don't know what their energy needs will be in 10 years. Having the option to add additional solar panels or battery storage to your system down the road can give you the peace of mind that you've invested in a home solar system that benefits you now and in the future. About SunPower

How do I add a solar system?

EXAMPLE: Add to System: 1 x 12V 200W Solar Suitcase with attached charge controller wired directly to the battery. Outcome: You've created 2 separate systems and each charge controller is adequate for each set of panels, so you're all set! 2. Wire Gauge & Fuse Size
