

How to build a rack to install photovoltaic panels

Many DIYers have a vehicle that already includes some kind of roof rack. In this case it's easy enough to simply bolt the rigid panels to the roof rack, or customize the rack to fit the panels. Some vehicles are designed with ...

Make sure that the brackets are level so that your solar panel rack is stable. Finally, use screws to attach the solar panels to the rack. Start at the top and work your way down, making sure that each panel is level. With a little bit of ...
