

How to destroy the neighbor's photovoltaic panels

Does neighbor A obstruct neighbor B's solar panel?

That is, if Neighbor A's tree existed at its current stature before Neighbor B installed his solar panel, then the law may rule in favor of Neighbor A. However, if Neighbor A planted trees or had young trees that grew up to obstruct Neighbor B's existing solar panel, then the law may rule in favor of Neighbor B.

Can solar panels affect a neighbor's property?

In one well-publicized example, the mirrored convex surface of a London skyscraper concentrated sunlight into a "death ray" that melted the interior of a nearby parked Jaguar. A dearth of case law exists in California as to allowable levels of heat, light, glare and inconvenience that may be directed by PV panels to a neighbor's property.

Is it worth fighting neighbors over solar panels?

According to Lampner, solar panels, which could potentially save a nonprofit more than \$20,000 a year, are not worth a fight with neighbors for most people, as their homes are their biggest single asset.

Can a tree obstruct a solar panel?

However, if Neighbor A planted trees or had young trees that grew up to obstruct Neighbor B's existing solar panel, then the law may rule in favor of Neighbor B. Many states also permit solar easements, which are agreements between landowners to assure access to sunlight by restricting obstructive vegetation.

Can a nonprofit prevent neighbors from installing solar panels on their lawn?

In the historic district of Mount Washington in Baltimore, some homeowners have started a petition to prevent a nonprofit from installing solar panels on their lawn. (Note: The passage does not directly answer if neighbors in general can prevent a nonprofit from installing solar panels, but it does provide an example of a situation where this has occurred.)

Is glare from a neighbor's solar array a nuisance?

In spite of CA being in the forefront of residential solar utilization, there seems to be not much guidance or case law as it applies specifically to glare from a neighbor's solar array as it may/may not constitute a nuisance. Your situation *viv-a-vis* your neighbor may indeed wind up in court.

The Solar Shade Control Act prohibits homeowners/neighbors from planting a tree or shrub that would shade more than 10% of a neighboring solar collector between the hours of 10 a.m. and 2 p.m. However, this doesn't mean you can ...

Solar photovoltaic projects consist of hundreds or thousands of solar panels that convert sunlight directly into electricity. Large solar fields such as those that have been built in the last several years in Southern California

How to destroy the neighbor's photovoltaic panels

and the desert ...

If your neighbor's tree is stopping the sun from shining on your solar panels, the first big question to ask is whether it was in place before you put the panels up. If so, you can't just force your neighbor to cut down pre-existing ...
