

# How to find out that the photovoltaic panels are not generating electricity

How do I know how much energy my solar panels are producing?

If you want to keep track of how much energy your solar panels are producing, you can use a solar monitoring app. This app will show you how much power your solar panels are generating on a daily, weekly, or monthly basis.

What should I do if my solar panel is not working?

Before picking up the phone to call for solar panel maintenance ("Hello, my solar panels are not working...") you can perform a few quick checks to further diagnose the issue: See if a circuit breaker tripped on your electrical panel. Restart your inverter, as this can sometimes clear out any faults in the system.

Will a solar panel produce 100% of its rated power?

However, a solar panel will generally not produce at 100% of its rated power in real-world conditions due to one or more of the issues and loss factors listed below. On average, a solar panel will generate around 80% of its rated power depending on the orientation, season, and air temperature.

Are my solar panels working?

If you're still not sure if your solar panels are working, the best thing to do is call a professional. They will be able to inspect your system and tell you what's wrong with it. If you have any of the tips from this article, try using them before calling for help.

How do I know if my solar panels are working?

Here are five things you can do to ensure your home solar panels are functioning as they should so you can keep running on the sun: Do you own your home? What is your average monthly electric bill? 1. Check the Weather While solar panels work on cloudy and rainy days, their power output will be slightly less than on clear, sunny days.

Why are my solar panels not working?

Obstructions like trees and buildings throw shade on your solar panels, blocking the sun and preventing them from producing energy. If your solar panels are not producing as much power as they once did, check for new obstructions that didn't exist when you installed your system.
