

How to ground photovoltaic panels safely for lightning protection

Common Method of Grounding for Photovoltaic Lightning Protection. ... For the solar panel grounding, general use 40 * 4mm flat steel or f10 or f12 round steel, and finally buried depth of 1.5m underground, the grounding resistance of the ...

The lightning protection for AC side generally by the fuse or circuit breaker and lightning surge protector. Mainly on the induction of lightning or direct lightning or other transient over-voltage protection of the surge, the lower end of the SPD ...
