How to make an advanced solar generator in the industrial mod of Minecraft

How to build an advanced solar generator?
Construction of an Advanced Solar Generator requires four Solar Generators,but it produces six times the power of its smaller counterpart. It also requires an area of 3x3x3 Blocks in order to be placed. Universal Cable or other compatible wire can be connected to the side of the base with a green square or the bottom of the Generator.

How do I build a solar panel?
Craft 2 Electronic Circuits, a Generator, and macerate 3 coal into 3 coal dusts in the [Macerator]. Then you can craft the Solar Panel. Connect your Solar Panel (with or without a cable) to the top of the BatBox. Now your BatBox will receive a constant trickle from the Solar Panel and can also receive energy from your Generator.

How much power does the advanced solar generator produce?
The Advanced Solar Generator only produces full power during a clear day. It produces no power during night time,and only 20% of what it would otherwise during a rain. By default the Advanced Solar Generator produces 300 J/t in direct sunlight,and can output a maximum of 600 J/t. This amount can be changed inside of the Mekanism Config.

What is advanced solar generator?
Advanced Solar Generator is an improved version of the previous Basic Energy generator. Four Solar Generators are needed to build the Advanced Solar Generator c,but it produces six times more energy than its smaller cousin. It also requires a 3x3x3 Block area to be placed. Advanced solar generators only produce electricity during the day.

What is a solar generator?
This page is about the Solar Generator added by Mekanism. For other uses, see Solar Generator. The Solar Generator is a generator added by Mekanism. It produces approximately 18 RF/t, 46.54 J/t, 4.65 EU/t or 19 T/t during daylight hours and a very small amount when it is raining.

What is a solar panel from IndustrialCraft 2?
This page is about the Solar Panel from IndustrialCraft 2. For other uses,see Solar Panel. The Solar Panel from IndustrialCraft 2 is an upgraded version of the Generator that produces EU from the sun.
