

How to open the cover of the photovoltaic bracket

How do I install a pvs6 bracket?

1. Mount the PVS61. Select an installation location that is not in direct sunlight. 2. Mount the PVS6 bracket to the wall using appropriate hardware for the mounting surface and that can support at least 6.8 kg (15 lbs). 3. Fit the PVS6 onto the bracket until the mounting holes at the bottom are aligned. 4.

How do you mount an inverter to a bracket?

6 Hang the inverter on the bracket: Align the two indentations in the inverter enclosure with the two triangular mounting tabs of the bracket, and lower the inverter until it rests on the bracket evenly. Secure the inverter to the bracket using the two supplied 5mm screws.

How do I install a solar inverter?

Switch off AC to the inverter on the main service panel. Make sure the PV voltage is lower than 30V. Toggle off the battery ON/OFF/P switch. Turn off the battery circuit breaker. Select an appropriate installation location. Position the mounting bracket against the installation surface. Mark two or more drilling spots.

How do you mount a PV module?

Mounting rails run perpendicularly to the long frame side. Bolting on the long frame side using four middle mounting holes. Mounting rails run perpendicularly to the long frame side. Do not make modifications to any components of the PV module (diode, junction box, plug connectors or others).

What should I do if my PV module is broken?

Contact with module surfaces or frames may cause electric shock if the front glass is broken or the backsheet is torn. The PV module does not contain any serviceable parts. Do not attempt to repair any part of the module. Keep the junction box cover closed at all times. Do not disassemble a module or remove any module part.

How do I replace the pvs6 enclosure cover?

Replace the PVS6 enclosure cover by snapping it into place. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (2) This device must accept any interference received, including interference that may cause undesired operation. FCC Rules.

Installing a solar energy system can be a challenging task. A home solar panel installation will include up to or more than a thousand parts so gathering the right component parts can take a lot of time researching what each part is and what ...
