

# How to participate in the photovoltaic bracket exhibition

What is SNEC PV exhibition?

The SNEC PV Exhibition is the world's most professional photovoltaic exhibition, featuring a wide range of products including PV production equipment, materials, solar cells, PV application products and components, as well as PV engineering and systems, energy storage, mobile energy, etc., covering all aspects of the PV industry chain.

What is photovoltaic & storage event?

The three-day photovoltaic and storage event has provided a high-quality communication and networking platform for enterprises, traders, customers, and research organizations, which has connected up the resources of business partners, funds, and information.

What is SNEC PV Forum?

The SNEC PV Forum is also exceptionally diverse, involving analysis of future market trends in the PV industry, cooperative development strategies, national policy orientations, cutting-edge technologies in the industry, PV finance, and more, making it the best opportunity to showcase achievements to the industry. 8. Intersolar Europe 2024

What equipment is used in photovoltaic production?

Photovoltaic Production Equipment: silicon rod silicon block silicon ingot production equipment, silicon wafer production equipment, battery production equipment, solar panels/modules production equipment, film version of the battery production equipment, and etc.

How many exhibitors are there at Intersolar Europe 2024?

For the next edition, there will be 1,370+ exhibitors on an exhibition space of 111,000 sqm. Intersolar Europe will take place from June 19-21, 2024 as part of the innovation hub The smarter E Europe, Europe's largest alliance of exhibitions for the energy industry, at Messe München.

At this exhibition, we will showcase the latest solar tracker products and technological achievements, including a series of products such as flat single axis tracking brackets, inclined single axis tracking brackets, dual axis tracking ...
