

How to place photovoltaic panels to avoid damage

Wire cutters/strippers: These tools will be needed if there are any wires connected to your solar panel system that require cutting or stripping before removal can take place. 6. Drill with bits/sawzall (optional) : If there are any ...

One thing many solar investors don't always consider is transporting...whether from a store to your home or from one home to another. Granted, when you have a solar array installed the installation company will do the transporting...but if ...

Let's talk more specifically about what determines the level of solar panel damage from hail in Chicago. Hail Size. The larger the hail, the more likely it is to cause serious damage to the PV modules. Big hail (3 cm+) is more likely to cause ...
