

How to prevent birds from landing on photovoltaic panels

What to do to prevent killing birds when installing solar panels? To prevent bird deaths when installing solar panels, consider the following steps: Choose the Right Location for Your PV Solar Panels; Select a site that is not ...

Our next solution is a bird net/metal mesh netting. Essentially this net would sit over your solar panels and prevent birds for landing, and getting underneath the panels. This is better than the bird spikes solution as it fully ...
