How to weld the double photovoltaic bracket

How do I install rigid solar panels on my roof?

EcoFlow's rigid solar panels come with a EcoFlow Tilt Mount Bracketfor easy rooftop installation. The components include four fixing brackets,two adjustable brackets,and screws. This should be all you need to mount rigid solar panels on the roof or any other flat surface on your home that receives direct sunlight.

How do you mount a solar panel array?

There are various mounting materials you might use, depending on where you mount your solar panel array. Let's cover a few options below: Aluminum: is strong, lightweight, and resists corrosion. It's easy to work with an aluminum angle, and any home drill will suffice for the holes you'll need to create.

How do you attach a fixing bracket?

Connect the other leg of the fixing bracket to the first leg,connecting them at one end. It's best to tighten the screw by hand so you can adjust the fixing bracket to the proper tilt angle (see more in the next step). Do the same on the other side so you have all four legs of the fixing bracket attached.
