

Did Maxeon infringe a Japanese patent on shingled solar panels?

In September 2020, Maxeon filed a lawsuit in Tokyo District Court, Japan, alleging Canadian Solar Japan infringes Maxeon's Japan Patent No. JP6642841B2 ("Shingled Solar Cell Module") for the proprietary and fundamental shingled solar cell panel technology used to deploy SunPower Performance solar panels.

Why did Maxeon file a lawsuit against a shingled solar panel?

The action was filed against one of Maxeon's patents for the proprietary and fundamental shingled solar cell panel technology used to deploy solar panels that Maxeon designs and sells under the 'SunPower Performance' brand name.

Who makes performance shingled solar panels?

The Performance shingled solar cell panel architecture and manufacturing processes were pioneered by Silicon Valley-based start-up company Cogenra Solar. SunPower Corporation acquired Cogenra in 2015, and Maxeon retained the shingling technology IP rights following its spin-off from SunPower in August 2020.
