

I want to remove the installed photovoltaic panels

Do you need a solar panel removal service?

Considering a solar panel system is a large investment, it makes sense to only let experienced solar installers handle your solar panels and perform this solar panel removal service. Moreover, removing and reinstalling solar panels involves a complicated permitting process that's best navigated by a qualified solar installer.

How much does it cost to remove solar panels from a roof?

On average, the cost to remove solar panels from a roof in 2024 is \$300 to \$1,000 per panel. The exact price for your home solar panel removal depends on the number of solar panels, whether you lease vs. own, and the damage the solar panels have incurred over the years.

How do I request a solar panel removal & reinstallation?

Before we can proceed with your R&R, you'll need to confirm that your roof type is eligible for solar panel installation. Submit your R&R request to start the removal and/or reinstallation process from the Tesla app ('App' > 'Energy Site' > 'Support' > 'Get Help' > 'Other' > 'Removal & Reinstallation').

How do I remove solar panels from my roof?

The process of removing solar panels on your roof involves multiple steps. From turning off your solar energy system, unhooking the solar power generation system, removing the mounting hardware that holds the solar panels in place, and then taking down and securely storing the solar panels until it is time to put them back up again.

Can I remove solar panels myself?

While it is technically possible to remove solar panels yourself, it is highly recommended to consult with a professional solar installer or technician to ensure the process is done safely & correctly. Solar panels are delicate and expensive components, and improper handling can lead to damage or injury.

Can a solar panel be removed from a roof?

Thus, it's best to have your solar panel system removed by trained solar professionals who have the knowledge and equipment to do the job right. While repairing many parts of your solar power system can be done on the roof, it is often much safer to do this work after the panels are removed.

With solar panel warranties of 25 to 30 years and a usable lifespan of well over 30 years, it is possible that you will need to remove the panels to patch a portion of your roof or install an entirely new roof. This blog provides ballpark estimates ...
