

What is energy storage testing & certification?

Testing and certification services for battery or energy storage systems used in electric vehicles, energy storage and distribution systems, and other large format applications. Our services are designed to help reduce the complexities associated with creating energy storage products.

What is industrial battery & energy storage testing & certification?

Our industrial battery and energy storage testing and certification services can help you address the complexities associated with creating, storing and repurposing battery and energy storage products.

Who can benefit from energy storage testing & certification services?

We provide a range of energy storage testing and certification services. These services benefit end users, such as electrical utility companies and commercial businesses, producers of energy storage systems, and supply chain companies that provide components and systems, such as inverters, solar panels, and batteries, to producers.

Are energy storage systems reliable and efficient?

Energy storage systems are reliable and efficient, and they can be tailored to custom solutions for a company's specific needs. Benefits of energy storage system testing and certification: We have extensive testing and certification experience.

What is a safe energy storage system?

It applies to both residential and commercial energy storage systems and is a common standard for manufacturers and installers. Ensures the system operates safely under regular and fault conditions, preventing electrical threats.

Are power storage systems UL9540 certified?

Power storage systems (ESS) must adhere to extensive requirements for UL9540 certification, guaranteeing safety, efficiency, and reliability. This standard details the needed problems and strenuous testing procedures ESS should undergo to be considered certified. Right here are the key issues that must be addressed:

Shenzhen/Munich, May 12, 2020 - BYD Co. Ltd., one of the world's largest manufacturers of rechargeable batteries, today received the official certification for the VDE 2510-50 energy storage standard by TÜV Rheinland for their ...
