

Industrial photovoltaic energy storage project bidding

Which solar-plus-storage projects were bidding in Germany's latest innovation auction?

All the bidding projects from Germany's latest innovative auction were a combination of solar with energy storage. Image: Convergent Energy + Power. Germany's latest innovation auction has awarded contracts to 32 solar-plus-storage projects with a cumulative capacity of 408MW.

What is a solar PV & energy storage innovation tender?

Launched in 2020, the innovation tender seeks to combine several renewable resources, however as shown in the latest auction all bids submitted have been for the combination of solar PV with energy storage.

How can automated bidding software improve grid reliability and efficiency?

"By implementing and utilizing cutting-edge automated bidding software for our projects, we will be able to improve grid reliability and efficiency while also supporting our customers' green energy transitions in a safe and reliable way," said Leo Moreno, AES clean energy president.

Where will EP Produzione build a battery energy storage system?

EP Produzione will build 170 MW of battery energy storage systems with a two-hour storage duration at two sites. One project will be located at the company's Fiume Santo coal-fired power plant in Sardinia, originally set up in the 1960s.

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.
