

Inspection regulations for photovoltaic energy storage systems

How do I schedule a solar installation inspection?

Once all permits to construct the solar installation have been issued and the system has been installed, it must be inspected before final approval is granted for the solar system. On-site inspections can be scheduled by contacting [DEPARTMENT] by telephone at [PHONE NUMBER] or electronically at [WEBSITE OR EMAIL ADDRESS].

What is a fire safety inspection for a solar PV installation?

To ensure fire safety of a solar PV installation, the inspection verifies labeling of equipment to limit firefighter exposure to electrical voltage, space for firefighters to access the building or structure and limitations in roof installations due to firefighting suppression techniques.

What are the requirements for a solar photovoltaic (PV) panel?

4.6.1 Solar photovoltaic (PV) panels supported by framing that have sufficient uniformly distributed and unobstructed openings throughout the top of the array (horizontal plane) to allow heat and gases to escape, as determined by the enforcing agency, are generally not subject to this requirement (CBC Section 903.3.3).

How much SH-free area is required for ground mounted PV arrays?

sh-free area of 10 feet shall be required for ground mounted PV arrays. Electrical Code Requirements: The solar energy system installation shall conform to the approved plans and meet the a

How do I request a solar system inspection?

Enable inspection requests to be submitted online or electronically. Provide for on-site inspection during the next business day after notification that the solar system has been installed. If inspection on the next business day is not possible, inspection should occur within five days after AHJ receives request.

What are the requirements for a roof-mounted PV system?

Firefighter access according to approved plan. Roof-mounted PV systems have the required fire classification (CBC 1505.9 or CRC R902.4). Grounding/bonding of rack and modules according to the manufacturer's installation instructions that are approved and listed.
