

Introduction to the Photovoltaic Bracket Processing Team

What is the production capacity of akcome solar mounting system?

The annual production capacity of AKCOME solar mounting system is 4G, which is in the forefront of China's PV mounting bracket industry.

Can versol mount a photovoltaic power station?

Versol's V-Basic mounting system can be applied to photovoltaic power station in different terrain and environment. The product range includes a wide range of models and styles, and is highly adaptable.

How many production bases does solar power company have?

The company operates three major production bases, encompassing nearly 50,000 square meters of production area. Its main business includes various photovoltaic fixed ground mounting structure, distributed mounting structure, tracking photovoltaic mounting structure, building mounting structure, and distributed power station development, etc.

W-style photovoltaic brackets, with their distinctive "W" shape comprising three inclined supports, offer unparalleled stability, making them an ideal choice for regions with high winds. ... the use of standardised components can ...
