Why is China focusing more on solar photovoltaic (PV)?

The solar photovoltaic (PV) power is abundant, clean, and convenient and also has been considered as one of the most promising renewable energies [5,6]. Due to the ever-increasing energy and environmental pressures, China is switching to focus more on fostering the PV industry.

Is photovoltaic power a strategic goal for China's future energy?

This has become a significant strategic goal for China's future energy (Huang and Wang, 2018). Photovoltaic (PV) power generation is an important form of solar energy use. Different policies have encouraged its development, including those addressing technology development, production, and application.

How can China improve photovoltaic development?

Chinese government relies too much on the state's macroeconomic control in PV power applications. Reinforcing demand-type policies and improve green certification transactions is needed in China. Over the past decades, a series of policies and regulations have been formulated to encourage photovoltaic (PV) development in China.

Is China's photovoltaic industry on a fast track of development?

[SHI BUFA/FOR CHINA DAILY] China's photovoltaic or PV industry is on a fast track of development with new installations and exports hitting record highs, and will stay resilient amid mounting challenges from fiercer global competition and trade uncertainties, experts said.

Does China hold a dominant position in the global photovoltaic supply chain?

Jiang Yali, a solar analyst at energy research provider BloombergNEF, said that China holds a dominant position in the global photovoltaic supply chain, accounting for more than 75 percent of its total output.

Does government subsidies affect photovoltaic energy production in China?

This research was funded by the National Social Science Foundation of China (20BGL046). Government subsidies (GSs) have triggered a remarkable increase in the production capacity of photovoltaic (PV) electricity in China. However, the lack of core technologies has limited PV enterprises...
