

Jinko brand photovoltaic panels

Who makes Jinko Solar panels?

Jinko, founded in 2006, is a solar panel manufacturer. On this page, you can find a complete list of solar panels from Jinko and compare models side-by-side. Quick facts about Jinko solar panels in the EnergySage Buyer's Guide: Are Jinko solar panels best for you? How to choose the right solar panels for your needs

Are Jinko Solar panels good?

Jinko Solar is an excellent solar manufacturer that has earned its place as one of the biggest in the business. Its high-quality panels perform well and come with great warranties. You're unlikely to have any problems with your panels; not only is solar panel failure rare, but Jinko Solar panels are as reliable as they come.

Does Jinko Solar make inverters?

Jinko Solar makes solar panels and solar batteries. The company does not have any information about inverters. Like many panel manufacturers, it likely relies on your installer coupling the panels with third-party inverters, such as those from Enphase or SolarEdge.

Where are JinkoSolar solar panels made?

However, JinkoSolar recently opened a solar panel manufacturing facility in Jacksonville, Florida, where they manufacture the aptly named "Eagle" series of American-made solar panels. JinkoSolar panels—and the Eagle series in particular—are increasingly popular in quotes to solar shoppers comparing their options on the EnergySage Marketplace.

Which Jinko Solar panels are available at Topcon?

The Eagle G6 panels are the only TopCon offering from Jinko. Jinko manufactures only one solar battery for residential use, the Eagle RS. It also makes the Eagle CS, but that battery is only available for commercial, industrial and utility-scale power storage.

Does Jinko make a solar battery?

Jinko manufactures only one solar battery for residential use, the Eagle RS. It also makes the Eagle CS, but that battery is only available for commercial, industrial and utility-scale power storage. The Eagle RS is available in one capacity -- 19.2 kWh -- which is much larger than competitors like the Tesla Powerwall (13.5 kWh).
