

Kubuqi Photovoltaic Base Energy Storage

What is the expected completion date of Kubuqi base project?

It did not share any details about the expected completion project date. "The Kubuqi base project is the world's largest wind power photovoltaic base project developed and constructed in desert areas," said the Chinese state-owned power producer, noting that it will invest CNY 80 billion (\$11.5 billion).

How big is the Kubuqi Desert in area?

The Kubuqi Desert in North China's Inner Mongolia autonomous region covers a total planned area of 1,666.67 hectares (25,000 mu) for the solar power facility. Solar panels and newly planted trees cover this area of the desert.

Does Kubuqi Desert create ecological wealth?

At the conference, the UN released the Report on Ecological Wealth Creation in China's Kubuqi Desert, which acknowledged the greening of the 6253 square kilometers of Kubuqi. According to the report, the model has created an ecological wealth of CNY500 billion and 102,000 people are lifted out of poverty.

Where is Dalad photovoltaic power base located?

The Dalad Photovoltaic Power Base is located in Dalad Banner, administered by Ordos city in North China's Inner Mongolia autonomous region.

Is Kubuqi a global project?

The project has become globally recognized, receiving favorable feedback from the United Nations (UN). In September 2017, the sixth Kubuqi International Desert Forum and the 13th Conference of the Parties to the UN Convention to Combat Desertification were held in Ordos.

Where can you see a Fox in the Kubuqi Desert?

Today, local shrubs and bushes can be seen in the Dalad Banner region of the deep interior of the Kubuqi Desert. With a keen eye, you may even catch a glimpse of hare or a fox. What has happened? On the Kubuqi's horizon appears a galloping horse made up of over 196,000 PV modules. It is the Junma Solar Power Station.
