Will solar PV module waste be repurposed by 2040?

The estimated cumulative worldwide solar PV module waste (tonnes) 2016-2050 [13, 14]. 7. Conclusion Based on the swift growth in the installed PV generation capacity, we propose that the number of EOL panels will necessitate a strategy for recycling and recovery which need to be established by 2040.

Is China preparing for a surge of PV waste?

However, in the world's largest PV market, China still lacks a comprehensive regulatory framework and policy system for managing PV waste, presenting a hurdle in preparing for the imminent surge of PV waste (Green Peace, 2022).

Does China have a comprehensive system for recycling PV waste?

This study conducts a comparative analysis and validation of four methodologies in forecasting PV installations, and subsequently forecasts the volume of PV waste in China, projecting an estimated 6.24 million tons by 2050. Nevertheless, the nation still lacks a comprehensive system for recycling PV waste and the requisite management expertise.

How many PV recycling companies are there in China?

Despite the presence of approximately ten enterprises engaged in PV recycling activities in China, including State Power Investment Corporation, Jinko Solar and Yingli Solar, none have yet achieved full-scale industrial production. Why is PV recycling such a formidable task?

Can PV waste be forecasted in China?

However, the improper handling of PV waste may result in considerable resource wastage and potential environmental pollution. This study conducts a comparative analysis and validation of four methodologies in forecasting PV installations, and subsequently forecasts the volume of PV waste in China, projecting an estimated 6.24 million tons by 2050.

How will PV panel waste impact the future?

As the global PV market increases, so will the volume of decommissioned PV panels, and large amounts of annual waste are anticipated by the early 2030s. Growing PV panel waste presents a new environmental challenge, but also unprecedented opportunities to create value and pursue new economic avenues.
