

The All-in-One liquid-cooled energy storage terminal adopts the design concept of "ALL in one," integrating high-security, long-life liquid-cooled batteries, modular liquid-cooled PCS, intelligent energy management system, battery ...

The integrated frequency conversion liquid cooling system helps limit the temperature difference among cells within 3 °C, which also contributes to its long service life. It has a nominal capacity of 372.7 kWh with a floor space of just ...
