What size fuses can a Littelfuse lfxv15 hold?

The Littelfuse LFXV15 series fuse block and cover is designed to hold 1500 V size 20 x 127 mm fuses ...  
More The LFPXV Series touch-safe dead front fuse holders are designed to hold 1500 V 10x85 mm fuses.  
Thes... More

Why should you choose Littelfuse solar fuses & fuse holders?

Littelfuse stepped in with their SPXI and SPXV 1500 V dc solar fuses and fuse holders. The performance and quality of these products impressed the manufacturer. In addition, Littelfuse worked with the manufacturer to take into account the time-sensitivity of the project and provide an inventory strategy that would work for them.

What is Littelfuse spxv?

The sale and use of Littelfuse products is subject to Littelfuse Terms and Conditions of Sale, unless otherwise agreed by Littelfuse. "Littelfuse" includes Littelfuse, Inc., and all of its affiliate entities. The Littelfuse SPXV solar string fuse is designed specifically for 1-60 A 1500 V dc applications.

What are photovoltaic fuses?

Photovoltaic (PV) fuses: A fuse designed and installed to handle power fluctuations due to reverse currents, power overloads and high system voltage in specific applications. PV fuses prevent overheating by eliminating reverse overcurrents that occur during fault conditions.

What does Littelfuse do?

With over 60 million devices installed in solar power systems, Littelfuse understands the challenges facing the photovoltaic market. Our solar-rated fuses, relays, TVS diodes, varistors, power distribution blocks, dc disconnect switches, surge protective devices and other products help protect equipment in PV applications.

Which fuses can protect a PV system?

The maximum circuit current and system voltage are important factors to determine which fuses can protect these systems. PV applications require fuses that can protect against overcurrents, reverse currents and short circuits, against which standard fuses would not provide adequate protection.

LittleFuse SPF-015 > 15 Amp 1000 VDC PV Fuse. The SPF Solar Protection Fuse series has been specifically designed for the protection of photovoltaic (PV) systems. This family of Midget style fuses (10 x 38 mm) can safely protect PV ...
